### III. Enforcement - context and implementation

#### III.I Remedial actions and immediate interim measures (ref. EUTR Article 10(5))

The enforcement of the EUTR requires Member States to put in place national measures which provide a robust framework to be able to take effective, dissuasive and proportionate enforcement action and sanction different duty-holders (operators, traders and monitoring organisations) for infringements of the Regulation. The information on the legal frameworks used, the range of potential national penalties and their uppermost levels provide valuable information to assess the consistency of potential enforcement actions across the EU. This section is structured by duty-holders' obligations under the EUTR (prohibition to place illegal timber on the market for operators; due diligence and reporting obligations for operators and monitoring organisations; traceability for traders, and reporting obligation for monitoring organisations) and the provisions for remedial actions or similar and immediate interim measures, which are applicable in case of or to prevent infringements to each obligation.

1 Please specify for which breaches of the EUTR Notices of remedial actions or similar measures, and Immediate Interim Measures (ref. EUTR Article 10(5)) can be applied in your country:

33 Comments:

In relation to the fact that remedial actions and immediate interim measures are not applicable in the Czech Republic for traceability obligation (operators/ traders) and reporting obligation (monitoring organisations) and the DECLARE does not allow us to leave blank options in the "Overview" for these two categories, we selected "Other national measures" in these two categories and we put "not applicable" in relevant parts of this section.
